

Rangga Dwi Cahya

Web Developer | Freelancer

I have experience in IT and website development. With an educational background from a vocational high school majoring in Software Engineering and relevant work experience, I am capable of adapting quickly, working under pressure, and possessing excellent communication skills. My goal is to continuously enhance my skills and make a significant contribution in the workplace.

Work Experience

Junior Website Development

Digital Studio

Aug 2022 - Jan 2023
Cimahi, Indonesia

At the company, I was responsible for maintaining several websites and solving problems. Additionally, I handled PC and operating system reinstallation tasks. I also created documents using PHP, HTML, and CSS.

Web Developer

PT Karya Eka Nala

Apr 2021 - Jun 2021
Bandung, Indonesia

I completed an internship during my vocational high school years through the Prakerin (Industrial Work Practice) / PKL (Field Work Practice) program. I served as the team leader for a project to create a work schedule website using CodeIgniter 3 and Bootstrap. Additionally, I coordinated with other group leaders during the project.

Software Engineer

Wanoja

Jan 2023 - Oct 2024
Bandung, Indonesia

At this company, I developed a website using PHP and also handled several migrations from PHP to Laravel. Not only did I work on the Backend, but I also integrated the website's appearance as part of UI/UX and directly implemented the Frontend using React JS.

Education

Agustus 2019 - Juni 2022
