PROFESSIONAL SUMMARY

I am a Software Engineer and Web Developer with over 2 years of experience specializing in Backend development using PHP, Laravel, MySQL, and Yii2, while also enhancing my Frontend skills with JavaScript, Tailwind CSS, and Bootstrap. I have successfully led and delivered projects such as work schedule systems and internship information websites, showcasing my ability to create efficient and user-friendly web solutions. With a strong foundation in IT support and a growing focus on API development, I am passionate about building impactful solutions that solve real-world problems and align with my vision: "Build Something to Make It Better."

WORK EXPERIENCE

Web Developer - Wanoja & Zizazu, Bandung.

Jan 2023 - Nov 2024

- Designed and developed websites using PHP Native.
- Handled error resolution and debugging to ensure optimal website performance.
- Conducted system migration from PHP Native to Laravel and React JS to improve application scalability and efficiency.
- Performed network and hardware troubleshooting, including network and laptop repairs, to support IT operations

IT Support - Digital Studio, Cimahi.

Aug 2022 - Jan 2023

- Resolved errors using PHP programming language and the Yii2 framework.
- Performed system re-installation for Linux/Ubuntu to support operational needs.
- Conducted data backup on Linux/Ubuntu operating systems to ensure data security and integrity.
- Configured MySQL, Apache, and other components on Linux/Ubuntu operating systems to ensure optimal service functionality.

EDUCATION

Vocational High School in Software Engineering - SMKS Al Falah Bandung, 2022.

NONFORMAL EDUCATION

IT Support Specialist - Coursera (Google Career Certificate), 2024.

INTERNSHIP EXPERIENCE

Web Developer - PT. Karya Eka Nala, Bandung.

Apr 2021 - Jun 2021

- Delved into the concepts of Object-Oriented Programming (OOP).
- Learned the fundamentals of PHP programming for web application development.
- Developed a work schedule management website using the CodeIgniter 3 framework.
